

Education Cities

An Education City is our vision of a future where every child can access great public schools. Leading city-based nonprofits - or what we call education "harbormasters" - can help make this vision a reality in their cities by focusing on the following four strategies:

1. QUALITY SCHOOLS

Replicate great existing district and charter schools, launch promising new schools, and improve or replace schools that are not serving students well.

2. EFFECTIVE EDUCATORS

Recruit, support, and retain great teachers and leaders.

3. SUPPORTIVE POLICY

Support policies that help great educators create schools that meet the needs of students and families.

4. COMMUNITY ENGAGEMENT

Work with parents and other stakeholders to advocate for great public schools.

ENGAGEMENT
AN EDUCATION CITY

Education Cities is a network of education harbormasters across the country working to increase the number of great public schools. Together, we are improving educational opportunities for millions of families and children.
